

ROOTS AND SHOOTS: AGES 8-10

#guidingwaters

Allah (God) has given us water as a blessing.

In Islam we need water for istinja, whudhu (ablution) and ghusl (bathing).

Cleanliness is half of our Imaan (faith).

As Muslims we need to look after water and not waste it.

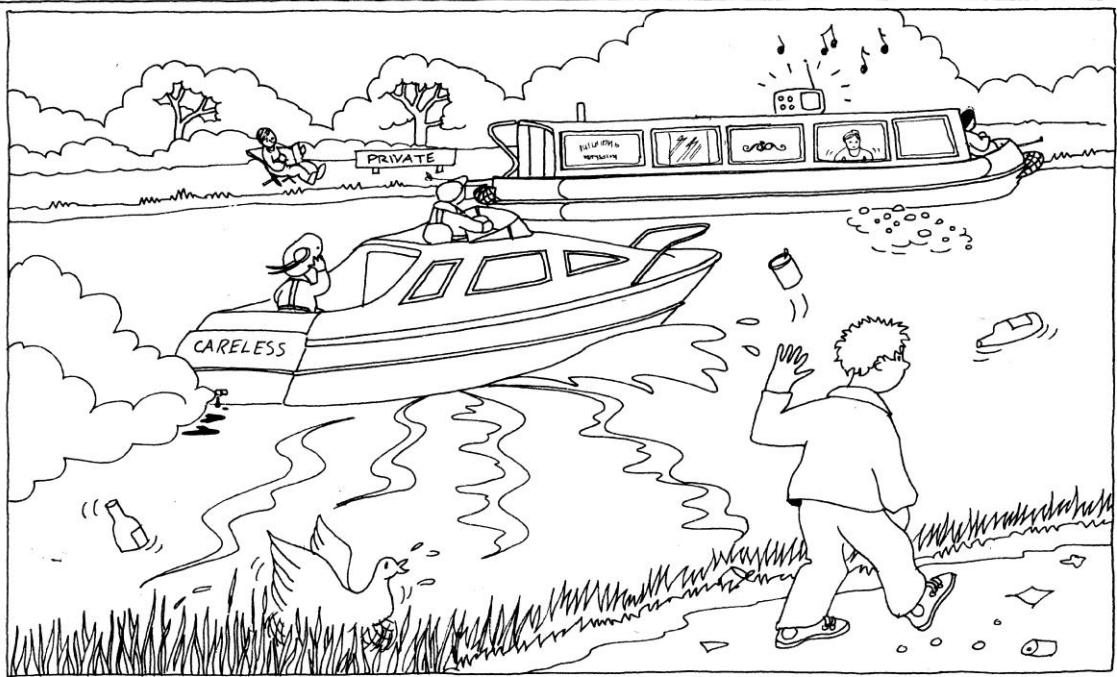

Using water wisely is part of Islamic teachings.

LOOKING AFTER THE WATERWAYS

Colour the pictures and spot the differences —
— which picture would you rather be in ?

CHEMICALS! Household cleaners pollute the water — use as little as you can.

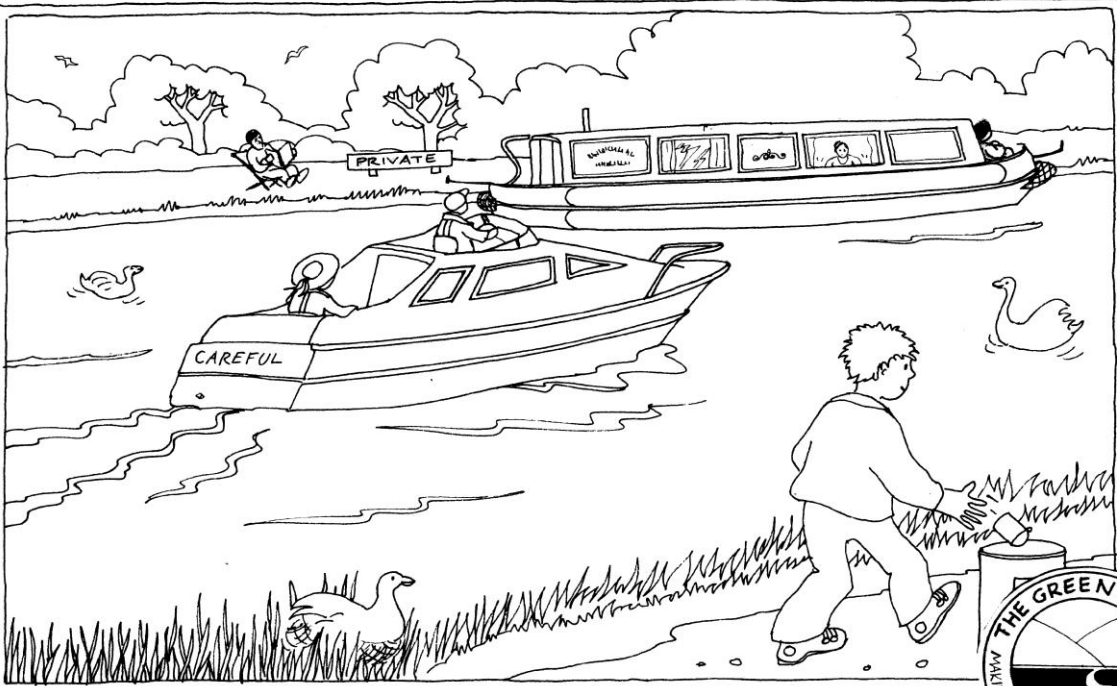

RUBBISH! Dispose of it carefully.

KEEP IT CLEAN!

Dirty engines make a stink and pollute rivers.

NOISE! Peace and quiet help to make the waterways special.

SPEED! Slow down - for the sake of wildlife, the riverbank and other people.

ROOTS AND SHOOTS: AGES 8-10
